CYBERSECURITY EXECUTIVE MASTER

PROGRAMS HIGHLIGHTS

Applies to each of three programs

Duration / Program

9 months

Format

Blended Learning

Strategic, Tactical & Operational skills

High Quality Online Sessions

Instructor-led sessions
by international experts

Case studies

Workshops

Simulations

Labs

Projects

Entrance to the program is conditional on a **SUCCESSFUL PLACEMENT TEST**, in two areas :

- **Cybersecurity Fundamentals** : cryptography, information security, cybersecurity risks, and protocols
- **Network & System Administration** : IP network architecture, IP protocol stack, mobile networks, Operating system and DB/Web application security basics.

Students who do not pass the entrance tests can choose to enrol in bridge programs and certificates that will allow them to master the knowledge required to enrol in the Micromaster program.

Certificates from

ABOUT MUST UNIVERSITY

MUST University is founded by a group of highly accomplished scientists and academics who graduated from world-renowned universities in North America, Japan, Europe, and Tunisia.

The founders include Deans, Provosts, CEOs of technology companies, and distinguished researchers and professionals. Several are among the top 2% of scientists, worldwide, in their respective fields.

Most of the founders are among the distinguished academic community residing abroad. All share a commitment to contribute to the region's development, enhance its human capital, and make MUST a platform to reverse brain drain and help modernize higher education systems in the region.

MUST University offers undergraduate, graduate, Micromaster, and professional certification programs focusing on various aspects of the digital, AI, and green transformations. It is a pioneer in the application of innovative pedagogies including blended, active, and service learning.
